SUMMARY

Frontend focused Full Stack Developer with 2+ years of experience. Experienced in building responsive, accessible web applications and contributing to backend logic and data scripts. Quick learner, adapt to new tools and methods, team oriented, and passionate about good user experience and code quality.

EXPERIENCE

Associate Software Engineer

KloudGin

- 05/2022 - 07/2024
 - Developed frontend solutions for enterprise asset and field service management applications using React, TypeScript, and Tailwind CSS.
 - Created reusable React components and improved UI responsiveness.
 - Supported backend development with Java and data updates using MongoDB scripts.
 - Worked with designers to implement user-friendly layouts using Figma mockups.
 - Collaborated with cross-functional teams in an Agile environment to deliver stable, user focused solutions.
 - Participated in CI/CD workflows, code reviews, and testing for frontend quality assurance.

Senior Support Specialist

HCL Technologies

- 08/2020 - 10/2021
 - Delivered technical support and resolved software issues for enterprise users and cloud based services.
 - Analyzed user incidents and identified opportunities to improve system performance and reliability.

Support Specialist

Infosys

- 03/2017 - 04/2020
 - Delivered reliable support for Apple Maps services, ensuring minimal disruption to end users by resolving incidents quickly and effectively.
 - Worked collaboratively with team members to share solutions and maintain service uptime.

EDUCATION

Bachelor of Engineering (B.E.) in Electrical Engineering

Nagpur University

03/2012 - 04/2016

Skills development courses

Naresh i Technologies

06/2016 - 02/2017

Certificate in Computer Programming

Centre for Development of Advanced Computing

10/2021 - 05/2022

SKILLS

Frontend

React, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS, Chart.js, Vite

Backend

Java, MongoDB, REST APIs, Supabase

Tools

Git, CI/CD Pipelines, Figma, Jest, Agile Methodologies

Others

JSON, Data Visualization, Code Quality, Accessibility, Responsive Design, Team Collaboration

PROJECTS

Kloudgin Field Service Management

01/2023 - 07/2024

Project focused on data visualization and user interaction.

- Built interactive and responsive dashboards using React to visualize real-time data with focus on accessibility and performance.
- Designed reusable UI components aligned with Figma specifications to ensure consistent user experience.
- Ensured high performance and maintainability with unit testing.

KloudGin Enterprise Asset Management

05/2022 - 01/2023

- Enhanced asset tracking features by developing scalable, maintainable components that improved system reliability and user experience.
- Progressed from bug fixing to feature development.

Ascension Service Desk

08/2020 - 10/2021

- Provided IT support to healthcare professionals, delivering technical assistance and resolving complex issues. Led incident resolution efforts and mentored junior staff.

Apple Maps Incident Management

03/2017 - 04/2020

- Efficiently resolved incidents, maintaining high service uptime and minimizing disruptions
